

Enabling Actions

Things that Cumbria can do to increase its ability to attract Green Investment

Green Investment Plan, Cumbria

- A body to give community representation in the investment process
- Agri-innovation hub – to demonstrate new land use opportunities for productive low carbon agriculture
- Retrofit academy – to build capacity in skills to implement retrofit
- M6 corridor – a geographical focus for transport, energy and natural resources investments

A Community Representative Body

A body to give community representation in the green investment process:

- Options: e.g. Community Interest Company or Community Benefit Society
- Represent local views in investment processes
- Receive/ hold/ spend a proportion of funds
- Hold environmental credits
